

I AM A REGISTERED REPUBLICAN, and I am very concerned about the Sinclair Broadcasting decision to force their stations to air an anti-Kerry documentary just a couple of weeks before the election. I don't know if it is illegal, but it certainly should be. No station should be forced to air a program-this is the United States of America, not a media dictatorship!

I think the FCC should review the license of Sinclair Broadcasting, in light of their action which removes local station autonomy. The FCC needs to strengthen media ownership rules to prevent media consolidation and dictatorship.

Thank you,
Carol Maslansky
